

Elearn Online Courses

Students log on to weekly instructions, participate in online activities, and complete weekly assignments. Online students utilize discussion boards where they can share their ideas regarding certain topics or assignments, weekly quizzes that provide instant results, e-mail correspondence with other students and the instructor. In addition, many internet instructors schedule time during the week when they will be "on-line" to discuss the class material.

All you need is: a computer, an internet connection, a web browser, and an e-mail address.
